For Immediate Release

Make-Bottle-Label Your Own Wine!

Two Part Holiday Party Starting Today!

Press Release...August 4, 2009. Start planning your Holiday gift giving today. Studio Vino helps you create your wine now and schedule your bottling party in December. This two-part process begins when you and a selected group of friends get together and make your own batch of red and/or white wine. An evening of wine tasting for you and your friends allows you to sample a wide variety of wines. Once you choose your favorite, Studio Vino guides you through the process of mixing the initial ingredients to begin fermentation.

Studio Vino monitors your personal wine for the next 90 days including racking, testing and filtering.

When your wine is ready to bottle, gather your friends, family, colleagues and/or clients together at Studio Vino for a bottling event with your own personal labels. The process makes for a fun-filled, unique and memorable experience.

Both events are included in the cost of your wine making experience. For an investment of \$15 or less per bottle, your custom-labeled wine makes an extraordinary gift. Given today's economy, wine making at Studio Vino is quite affordable plus you have an opportunity to plan a very distinctive Holiday party.

What a great way to start the Holiday season, create your wine in August and bottle in November or December.

Studio Vino is located at 1825 E. Guadalupe, 2 blocks west of the 101. For more information on Studio Vino, please call 480-586-1993 or visit www.studiovino.com
