Do you dream of moving to Napa and becoming a vintner? Studio Vino can grant half of that wish. Here's how it works: First, you taste wine varietals to determine your favorites, then mix the initial ingredients. Over the next 75 days, your wine is fermented, racked, clarified and filtered. You design your logo, then bottle, cork and label 14 or 28 bottles, *et voilà*: You are a vintner.
